Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 12,13,15,17 and 19-26 are rejected under 35 U.S.C. 102(b) as being unpatentable over Garcin 5,848,911. Regarding claims 12 and 21, Garcin discloses a contact 1 for establishing electrical connection with an electrically conductive wire, comprising: a base and two elongate blades 10,11 extending from the base and defining therebetween a channel within which a wire 3 is to be received, a first blade of the two elongate blades being flat and a second blade of the two elongated blades being shaped (widely), and having a longitudinal axis, a flat contact surface of one blade being opposite a cutting edge defined by two surfaces having respective planes, of the other blade and lying on opposite sides of the channel, the flat contact surface maintaining the wire substantially parallel to the flat contact surface through the channel and the cutting edge of the other blade pointing towards the flat contact surface wherein the blades each have two major surfaces and two minor surfaces and the flat contact surface comprises a portion of a major surface of one blade proximate the other blade and wherein the flat contact surface lies in a first plane.

Regarding claim 13, the second blade 10 is shaped so as to present the flat contact surface to the cutting edge of the other blade.

Regarding claim 15, the blades each have two major and minor surfaces and the flat contact surface comprises a minor surface of one blade proximate the other blade.

Regarding claim 17, the cutting edge comprises a corner of a major surface 34 with a minor surface 36 of the other blade.

Regarding claims 20,22,25 and 26, Garcin discloses a contact 1 for establishing electrical connection with an electrically conductive wire, comprising: a base 40 and two elongate blades 10,11 extending from the base and defining therebetween a channel within which a wire 3 is to be received, a first blade portion of the two being flat and a second blade portion of the two being shaped, a flat contact surface of one blade and a cutting edge defined by two surfaces of the other blade lying on opposite sides of the channel, wherein a line Δ' drawn parallel to the flat contact surface and passing through the point defined by the end of the cutting edge is not parallel to either of the surfaces defining the cutting edge.

Regarding claims 23 and 24, the contact is manufactured from a planar material (sheet metal).

Allowable Subject Matter

Claim 14 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including **all** of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments filed 6/6/06 have been fully considered but they are not persuasive. Applicant's "Remarks" should point out disagreements with the examiner's contentions. Applicant must also discuss the references applied against the claims, explaining how the claims avoid the references or distinguish from them.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
